

LANCER

Creating opportunities across the globe

Project Overview

About

Web Lancer is a website for both web developers and clients as well. As developers, you will be able to search for web related jobs around the world, and also find jobs that are available near your current location. As a client, you will have access to a list of all the top developers worldwide, and you will also be able to view the ratings of these developers, and you'll get a chance to see some of their latest projects.

Target Audience

Web Lancer is designed specifically for web developers and their clients. The goal is to create an environment where developers and their clients alike can meet in one central location to discuss and plan future web projects. The average user will be male and female, ages ranging anywhere from 18 to 50 and are looking for a job, or has a job offer that needs to be filled.

Optional Features

Dashboard Page

This page is where users will be directed to after registering or signing in. Users will then be allowed to choose between the client and developer options that are available to members only.

Account Information

Users will be able to view and edit their account information using the administrator options.

Timeline View

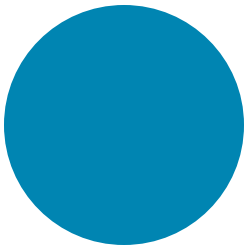

Users will be able to view a scheduled calendar of all pending jobs. This will ensure all parties stay current with all project updates.
